PRESENTATION

GPYO INNOVA is a company that focuses its activities on the development of public and private projects, reinforcing **INNOVATION** in our sector.

We belong to the Spanish Association of Engineering, Consulting and Technological Services Companies (TECNIBERIA).

In this sense, **GPYO INNOVA** offers the services of **Consulting and R & D & i related to Engineering, Energy Efficiency and the Environment**.

INTERNATIONALIZATION defines our level of competitiveness, which we consider a key factor to force our knowledge, our innovative and entrepreneurial capacity; **that is the main reason for having international experience focused in Latin America since 2010 established in Lima (Peru), with headquarters and our own offices.**

Our objective is to offer an **integral solution to those companies** that view the Peruvian market as a potential new market for their products, services or activities.

PRESENTATION

We are specialized in advice and integral management of projects, both technical, administrative, innovation and internationalization, we support companies to promote their projects by advising them in the formalization, presentation and monitoring before the Administrations, through the monitoring of their projects, maintaining relations with its customers, whether public or private. For this, **we analyze** your needs, **guiding** companies and **providing the necessary services** of professionals of the highest level (law firms, tax advisors and accountants, foreign trade technicians, market analysts, etc.), for the establishment of branches of their companies in the country.

Our mission is to seek the complete **SATISFACTION** of our clients, guaranteeing the **QUALITY** of our services thanks to the obtained experience.

GPYO INNOVA is aware of the commitment it has both with its employees and with the rest of society. Therefore, within its **Corporate Social Responsibility**, it contributes to a sustainable economic development, together with transparent practices, respect for the Environment and the welfare of the community, with an **Equality Plan**.
